**FSSC 22000 Food Safety, Kosher and Halal, GMP, GDP**

**Own warehouse and truck fleet**

**Permanent safety stock of high quality raw materials**

**Comprehensive product portfolio: 200 pharmaceutical APIs and excipients, 200 food additives**

**CMO services (like repacking, sieving etc.) for solids and liquids**

## Products - innovative and sustainable:

- Low chlorate
- Heavy metals minimised
- Nanoparticle-free
- MOSH/MOAH-free
- Melamine-free

Your challenge – Our solution

# CG HEALTH & NUTRITION

Quality and reliability

**As a strong partner for the nutritional and pharmaceutical industries, we offer our customers innovative and individual solutions.** Our procurement programmes and delivery systems are geared towards this – from qualified experts, access to high-quality raw materials, in-house production of additives to special logistics that ensure every product reaches its destination safely 365 days a year.

Our basis is the distribution of products in their original form – additionally to our distribution business, our core competence is marketing and sales of principals' products worldwide.

## HEALTH

Active pharmaceutical ingredients in original of the manufacturer

## NUTRITION

Distribution of food additives in original of the manufacturer plus own brand products

### CUSTOMERS APPLICATIONS

Antioxidants	Solvents
Binders and fillers	Mineral compounds and salts
Flavour modifiers	Thickeners
CIP solutions	Buffers and pH regulators
Preservatives	

### SPECIAL FOCUS: DAIRY INDUSTRY

#### Expert advice and specialised services

#### Comprehensive product portfolio

- Cleaning and disinfection
- Lubricant
- Processing aids and additives: product quality meets the requirements of e.g. infant formula production
- Aseptic packaging treatment
- Water treatment: cooling water treatment, steam generation, biocidal products, water treatment

### PRODUCT INNOVATIONS

NutriNovum® potassium hydroxide solution, E 525 (potassium hydroxide solution with a low chlorate content)

TRACELIGHT™ caustic soda, E 524 (sodium hydroxide solution with a low chlorate content)

TRACELIGHT™ – Trademark of The Dow Chemical Company

Valsterane® hydrogen peroxide

Permaflour (amine fluoride for dental care)

Cellulose, the lactose-free lactose from SAVANNA Ingredients (Cellulose is the basic building block of cellulose and a purely plant-based renewable resource)

# OUR UNIVERSE IS CHEMISTRY

## CG 1962 | CG CHEMIKALIEN

**Tradition and innovation:** We know exactly where we come from. Our experience of more than 60 years is a strong foundation and is perfectly combined with our desire to continually break new ground, develop new products and exploit current technological opportunities.

**Specialists and experts:** We talk to our business partners on an equal footing. We connect specialists and experts on our side and theirs. We attach the utmost importance to the qualifications, education and training of our colleagues and employees. After all, expertise is the basis for real understanding.

**Values pursued by CG:** We see ourselves as a problem solver for our customers. In this task, we are committed to values that drive our thinking and actions. We are innovative, agile, qualified and sustainable.

**OUR PROMISE: YOUR CHALLENGE – OUR SOLUTION!**

## OUR HISTORY

1962 It all started in 1962 –  
foundation of Chemikalien Gesellschaft (CG)

→ 1962 – 1979

- Expansion of the company premises by 15,000 square meters
- Acquisition of the chemical factory Dr. Reininghaus (Essen)
- Participation in Reher & Ramsden Nachflg. GmbH & Co. KG (Hamburg)
- Construction of a solvent tank farm and the two storey administration building
- Establishment of an own export department

→ 1980 – 1999

- Expansion of storage capacities
- Construction of the CG laboratory
- Acquisition of the SIL paint factory (Coppelnbrügge)

→ 2000 – 2009

- Acquisition of Wendt Chemie GmbH & Co. KG (Hamburg)
- Acquisition of shares in Wilhelm Jäkle GmbH & Co. KG (Nürnberg)
- Majority stake in Thommen Furler AG (Rüti near Büren, Switzerland)

→ 2010 – today

- Acquisition of CHEM-DIS GmbH (Eisenberg)
- Modernisation and increase of storage and production capacities
- Construction of the GMP certified CG Pharma Biotech production, manufacturing license §13 AMG, GMP warehouse 3,200 pallet places
- Construction of a 5-storey laboratory building
- Expanding business to APAC, LATAM, MEA and CIS

# CG HEALTH & NUTRITION

## VENDOR QUALIFICATION

Secured access to high quality raw materials

**CG**  
HEALTH &  
NUTRITION

## CG HEALTH & NUTRITION

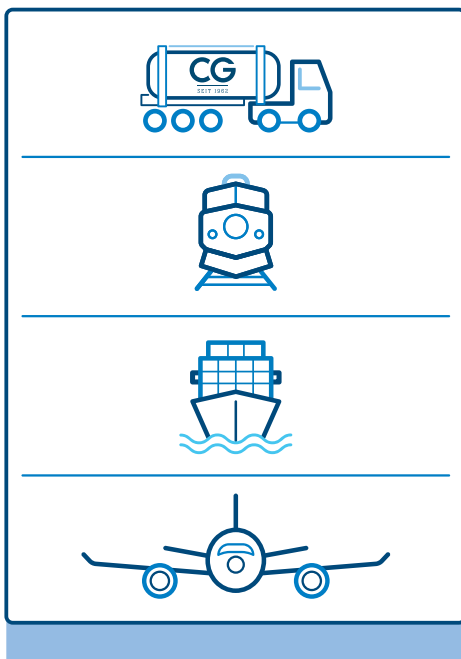

- Comprehensive product portfolio: 200 Food additives, 200 pharmaceutical active ingredients and excipients
- Individual packaging, filling weights according to customer specifications, range from large to small quantities and small containers

## QUALITY

Qualified certified:  
FSSC 22000 Food Safety,  
kosher and halal, GDP

## SUPPLY & LOGISTICS

- Guaranteed availability of goods and fast delivery
- Inhouse truck fleet and warehouse

# GOOD REASONS

**Our service philosophy always provides different answers to the same question: What exactly do our customers need?**  
 In close cooperation with the customer, we develop production concepts and processes in order to deliver exactly what is needed – individually and with the highest quality, guaranteed by consistent testing, safety and documentation systems.

In addition to individual services, we offer a wide range of standards and special services for our customers.

SERVICES AT A GLANCE	
Proactive campaign management for principal products	Individual special packaging, filling weights according to customer specifications, range from large to small packagings/quantities and small containers
Project management for customized solutions	
Distribution, food-pharma storage and transport: <ul style="list-style-type: none"> <li>• GDP transport with company fleet, global overseas shipment and strong global network with partner companies</li> <li>• Qualified GMP warehouse, temperature and humidity monitoring, &gt; 3,200 pallet bays</li> </ul>	Sourcing, laboratory, packaging (repacking)
	Manufacturing for CG products e.g. NutriNovum, Permafluor

## QUALITY AND RELIABILITY

Our validated processing operations, the concept of analytical skills and assured access to high-quality raw materials ensure that our products have minimal impurities, making them suitable for sensitive applications such as the production of baby food.

Our quality strategy is to meet specification standards for our products that are more stringent than those actually required and to achieve the highest possible level of quality. This applies to the entire supply chain, where comprehensive transparency is guaranteed – from separate documentation of the origin of the raw materials to careful quality testing of the mixtures produced.

## QUALIFIED CERTIFIED – OUR CERTIFICATIONS AT A GLANCE

QUALITY & SUSTAINABILITY	HEALTH & NUTRITION
